

Figure 1 consists of 12 bar charts arranged in a 3x4 grid. Each chart displays the percentage of the total sample for a specific category across seven age groups: 18-24, 25-34, 35-44, 45-54, 55-64, 65-74, and 75+. The categories are: 1. Total sample, 2. Male, 3. Female, 4. White, 5. Black, 6. Hispanic, 7. Asian, 8. Pacific Islander, 9. Other, 10. Married, 11. Single, and 12. Divorced. The charts show that while some categories like 'Total sample' and 'Male' are relatively stable across age groups, others like 'Married' and 'Single' show significant variation, with 'Married' being highest in the 55-64 age group and 'Single' being highest in the 18-24 age group.
